

#### General Specifications

Aluminum rollers are preferred in manufacturing Idle Roller conveyor, particularly for light-load applications.

Made of plastic headings with ball bearing and Ø 50 aluminum pipe.

Can be supplied in various standard size depending on conveyor width.

Stock Code	Stock Name	L	L1	L2	ØD	AA	Material	Loading Capacity	Weight (gr)
3.009.01.50.290	Ø 50 Aluminum Idle Roll	335	310	320	Ø50	8	Aluminium	200	584
