

FEP

Linear flexible hose

Linear flexible Schlauch

CHARACTERISTICS

Fluorinated Ethylene Propylene known for its outstanding properties in a variety of applications. Used when high temperatures are combined with aggressive and critical workplace environments.

- offers excellent resistance to chemical products
- is extremely inert and is stable up to a temperature of 200°C (392°F)
- has almost ideal dielectric properties
- is virtually unaffected by oxygen, ozone and UV rays
- fireproof to UL94 VO

TEMPERATURE °C

FEP can be used in a range of temperatures from -60°C to + 200°C. The table here below shows pressure values expressed as a % in relation to temperature.

25°	50°	75°	100°	150°	200°
100%	80%	62%	45%	28%	10%
